Res.

Godless <sup>Rel.</sup>  
2 years, black eyes &  
Educational work

going on.

Attain is a weapon  
for class warfare.

1930: we stressed  
the productive results  
of anti-rel. propaganda.  
It's connected with  
industrial & technical  
progress & with food harvest.  
Our anti-rel. should  
be subordinated to these  
aims.

Now class warfare  
is going on. The dying  
classes are not dying  
without struggle & they  
are using religion as a

weapon of warring.

The religious have fought agst collectives.

Eg. the religious people wrote letters, said that these letters ~~of~~ came from Heaven.

"O, God, tell me that the Kolkhoz is Satanic."

or "If you go into Kolkhoz, you will go to Hell."

eg. the rel. party said - as in that woman shd not have place in Kolkhozs.

Tell K.G. that his brother, Baptist, also did / same.

Seitant (Baptist) killed <sup>10</sup> ~~the~~ woman because she ~~was~~ stated to work - the communal work. I said that Kulaki had said Kolkhoz was Devil, work.

When a man entered Kolkhoz, died a few days later, a Kulak got hold of the ~~my~~ <sup>my</sup> ~~of~~ dead man "went as ghost" - said "God won't let me into Heaven."

Why fight agst rel? Because rel. upholds old capit. world, the Kulaks etc.

Take the Spring sowing -  
In old time they sowed on both  
feast days, whether weather  
good or not. Kulaks now  
optate. They use sci-  
entific methods.  
They store / plants for  
becoming rich.

We are fighting  
against three-field system  
Kulak says: keep  
1 field, in old system, in  
three field system.  
"Given God is for  
the three-field system,  
because God is for  
the Trinity - the Trinity  
is three field."  
Against cultural  
measures.

Religion's festival do  
harm to agr. 2 or 3 days they  
don't work, don't etc. of

Now sowing. Every day is  
valuable - some part  
for 7 days.

In transport  
game, they sow  
the week. Don't work on  
Sundays, some, & leave  
1 machine.

Latinisation  
helps masses but Kulaks  
say that Allah is not  
that.

Show that religion is  
weapon which is harm  
to workers.

Religion is enemy of  
Science.

~~1933~~ Sects. New Man  
Here we still Shoptai.

1933. Sem 15/11.

To build classless society.  
Now must struggle for  
democracy, the education  
of the NEW MAN.  
Anti-Kulak. ~~that~~ should  
help.

2. Class war has  
now taken new  
forms. Stalin said: Kulak  
is not dead, but crumbling.  
has mask of tax to mask  
into kolkhoz.

We begin with kulaks  
as class. But kulaks say,  
"all men are brothers."  
Have you enemies.

Are we your enemies?

~~We are not~~ ~~all~~  
~~are~~ We are for the  
ideological form of struggle,  
a physical form  
for deep cultural  
propaganda.

~~that~~  
Clarity of church  
interests us less than  
party / brain of people  
Not material  
power.

We are <sup>developing</sup> ~~not~~ ~~material~~  
We have punished people  
for doing church.

→ That means politely  
"leave me as an  
exploiter & an oppressor."

We have my case  
tell Mr. G. W. W. City  
demand closing of churches &  
we only close churches when  
it is demanded. We want  
them to close on our initiative.  
We have not closed one yet.

## New Men

(1) We must  
conservative for good.  
We try to educate new men.

(2) Science is playing  
big role. He must speak  
drafts of science  
& technique & teach dialectics  
& material betterment.

Now we <sup>are</sup> deepening  
an anti-rel. propaganda  
on the basis of philosophy

& science.

of kulaks were against  
incubators & said that  
that was against will of God.

Now we are bringing  
in scientists, papers  
get best  
scientists to give  
lectures on  
Biology  
Geography  
Jews  
The brain

Now more stressed.  
We have assigned 50 new  
teacher students & exhibits,  
albums & microscope  
from materialist standpoint.

We treat sects as  
the same.

No question as to belief  
of people in office

Religious education  
in the family is allowed  
& in church during the  
period of service

We don't allow  
special classes in religious  
education.
