At long the flies peak

To a certain degree

day we had a quiet morning.

The house is large and full of books  
of note. It cannot be equalled.

Wingnut bushes (Opposite)  
A wild plum on S. Bank - see  
note for holly.

The Japanese delegation is about  
to leave. We have been in  
Tokyo for a week. Much interesting work  
is being done.

Sept. 4<sup>th</sup> Spent the day.

However stations like ours offering room  
for a community and an individual farmer,  
have caught on. Farmers communities are  
now everything in commerce, houses, furniture,  
animals, food, everything must be sold.  
In old people no longer believe anything  
is arranged, there lot of young people are  
to get away to places like that but number  
of them are about. I do think number engaged  
individual farmers figure don't go with  
with small for their & their agent  
of selling them to you know nothing enough in  
the way but as far as village.

I am writing to you to request that  
you kindly make the following  
changes from my birth.

The third part of finally - down  
in due time.

Bluestone 15 (sq m) for  
lawn, potash, new bedding, and  
new field. Starting from 1 sq m  
in old wheat on left lawn. Got

you by Mail; nothing like writing.  
Sister & wife don't go to get married  
so we're going to have a wedding  
with them down here to our wedding. We  
have a different day, so I hope we'll have  
a wedding & I hope there will be a wedding  
there just as we'll be married (meaning  
that it's by us). The first one down here  
is the wedding at the plantation, and the  
other two will just all end up here  
in the garden & we will have food there. There  
will be a different food in each place, you see. We'll be  
here today. After the wedding there will be more  
or less dancing, the gathering around for  
not enough alcohol & not meat. That's it  
as far as meadow (with a house) I hope to do  
and little else in our planting, having  
done a little before. Do other parts of the  
new story. I hope to continue

Wing. It looks if and when he  
comes along it's likely you'll  
find him a long way off from where I shot  
him last spring every time you give  
him a call a day or two he seems  
to have moved on and then one day we have  
him back again. Not only my children  
but we girls will be anxious for him  
as far as he can go now.

building another house. We work  
for the home, just building their new  
one and we are glad  
to help them. We are the only  
ones that have any good strong  
men, only the old ones, or Indians,  
but they are bad workers. In 6 years  
we have put up three houses.  
We almost to build. We have very old  
men, (about 60) here, we are all not  
young, but good. We take about  
biggest, but old.

These days I spent the past with  
these men here, because you know most  
of them are young, we are old.

Not far from of Black  
Rock. They has had a company and  
station. This was a lot of Indians in liquid  
nitrate, mostly in now at all.

Recently  
they has had poor price and  
not able to buy so that give station.

Now the year before every, I think took  
by Indians.

Recently the Indians having nothing for  
them, but can't be selling it, and from  
our country - after the last 100 men to  
Bridge factory does not sell it, for  
Indians to get some probably out to

bridge, which is a big place, for some with  
money to buy, but hardly any  
of them have nothing.

We have working men here, no longer  
people we what have to sell  
something which we to be opened to you.

The bridge of  
is last a working village and there  
are about ten houses. They is not  
so there not a lot of Indians in  
population. It is a small town that  
have simple little people living there  
and there are now to come a blonde  
and living all / Campamento.

Campamento (blonde) living  
in this population and there  
is a lot of people in campamento  
of the Indians or not they; but there not  
so Indians outside living in campamento  
now they will for house, because working  
day is just down + profit no divided  
at first of year.

At about that + we are  
going to have a house of better living  
in before working day better. It is  
a house of Campamento + of 1000  
+ there are a house of 1000. Live +  
or families with the single houses  
all day. We must be bigger of it now.  
Now the 100 hundred, when a telephone

Wish'd him Goddly & Hamblett, —  
and with a good offer they got up another  
one and he for a day in the afternoon  
I wish'd him a present for his birthday but  
he say'd "I have a present for you now" and I say'd  
for her present, speak up she said her  
present.

He said he was thinking about  
getting it this afternoon, getting wife  
and child / we'll pay down, little child  
right on floor, beautiful night outside, then  
boys

Sept 8th / have supper here - the  
two children were here, then he come, then  
you - caught them in the street, go  
till he said speak, or not it's not  
very important any more & now we are  
got used to them. It's more and more  
now than before, then, two or three, then  
one / first year. Catching them, in  
stitch, you know the other children are  
the next / nothing went and

we come, decided Hamblett -  
holding my book in one & my hand in  
another like a shotgun or rifle, like this  
then we come with nothing in our door  
but an empty shotgun in the left hand and  
nothing else. Still an empty shotgun  
in there / come outside this room, in the left  
empty the other room / of course not. But still  
you can't tell them by a difference in / don't

you can't see the boy  
is caught with me till the  
children are here. Then the  
boy has a boy holding him  
longer than of them. Then  
he goes to the - you'll catch  
them again

professor, "he has made and is making" which  
which they are - home and I got the one  
child with them. "But we are here. That is  
one - something very - something. Then the  
other professor home - something and  
he says, "but we're following home not  
of right with the boys, this morning and look

Question  
Nationalization of factories. Do Russian object  
to Bolshevikism as a product of Western  
ideas. How do they regard machine?

Conversation will continue on Volga steamer: "I  
am a member of P.W. We are only 4 on board &  
only 6 candidates & we have a crew of 46. On  
your boat there is only 1 Commissar. It's  
hard to get them to join. Why? Because  
they're mostly of peasant origin & they believe  
in things like private property. The peasants  
don't like collective farms because they  
do not understand. A lot think it is  
something foreign & not truly Russian.  
it's something Western. They're suspicious,  
they don't understand."

I jumped on to next steamer.  
Men were carrying very heavy traps. G.P.U. men in  
uniform came down. "What Captain?" "I  
don't know, I'm a waiter." Captain came  
"G.P.U. said something about a room."  
"Right you are Room 15 is full." Waiter  
said "Don't, G.P.U. are very strict. If they found  
out they'd put them into prison. I didn't want to  
sleep it out."

Gypsy woman telling future, informed  
tells on a middle of night part until  
Russian women can be very black  
word for gypsy child.

Trochits on each departure; opposition  
dead of Holocots murdered

Bridge: (Trans-Siberian - Kagan) all  
ordered to go inside sheltering under  
bridge. Sitting with rifle.

Wife of Doctor: "The peasants have been sent  
away in thousands to Stevens. Didn't you see  
them in Kagan? Being killed, just because they  
worked hard throughout their lives. It's terrible  
how they've treated them, not giving them  
anything, no bread or water. They sent a lot to  
Tashkent & just left them on a square. They  
did not know what to do. Very many starved  
to death."

## New Policy. Communists. State

1. Propaganda goes everywhere.
2. Better food - goods supply.
3. Better treatment of engineers.
4. Better pay for better workers.

Now / children of engineers have equal rights as work children of enter school - this also there is a large possibility / loving of my of a good engineer who goes to work from one factory to another. They are now public / 1st category for rooms, food

Engineer. "You saw those heroes & Regas. That's what we need engineers - heroes. From left to express heroes like past in 1916 they were hoping things will be better for us. I have hope that my child will health to get to school.

Now this is forced labor. Nobody has a choice. I call my work forced labor because have to go to the works if work.

All / intelligentsia in Russia are disgusted with General Shav. They'd love to strangle him. (gesture). No fool, comes out for 10 days & says nothing but Potemkin's village.

There has been real tension; number of arrests. But now they are giving bonuses to so-called revolutionaries.

There are a lot of religious ones among / you who pretend this in Com. S. I've a friend who joined / Party just because majority of people who he was working joined. Very few are really sincere.

Nationalism is v.v. strong. Here [Tatys etc.] they hate Russians. This may be words local nationalism fanaticism.

Enough is done by force. Up to now we engineers have been at bottom of scale. Now we are made equal.

We are going to produce big quantities of nickel & chrome etc. S. Urals, a new base for industry.

The Russian intelligentsia is still  
working for liberty. Last I freedom here is  
defending the man.  
Kulak NOV everything appeared again  
as if by magic.

### Sept. 4<sup>th</sup>. Samara Economy.

At Samara station there were a group  
of a Commune and an individual farms.  
Commer. member said: "Now communes we  
own everything in common; house, garden,  
animals, land everything except our clothes.  
The old people are happy, because everything  
is arranged, but a lot of young people want  
to get away to town. Out of 400 members  
there are about 30 Party members + comms.  
Individual farms (poor, dark, pitted  
with small pox) said: "We are afraid  
of talking. How do you know other people are  
telling you / truth or lies in villages.

Young men with KSM (Communist Party  
& Youth) bulletins. Mr. Ananias fe  
up - 1921. These farms are terrible.

Telling: went to - ~~work~~  
There turned five of Commissaries - because  
we had no ticket.

Station about 15 (20) miles from  
Samara. got at - saw threshing; walked  
across field. stocky horse - driver  
in red shirt on white horse. Got

near by threshing machine, 20 work;  
stocks & oats. Took photo. At partment  
Conversation of cabinet 23: "When  
will they be on and to our misery. We  
have suffered we suffering so much.  
We are hoping - hoping there will be war;  
then there will be revolt" (meaning  
Kazakhstan) "The took our cows away  
for a whole week. It has been dry + not fed.  
Horses have not eaten all; our land was  
taken away & we were forced to work here.  
They don't give us enough; we work 12  
hrs a day. It is a thousand times worse; we  
are hungry. We get a tiny amount fresh milk,  
not enough bread + no meat. More 2  
are Party members (with a rush) They get a  
good ticket. One in red shirt was having  
love + kissing 1 girl. No other girls all told  
same story.

Talking - continue

Holters: "Oh it's terrible. He need 10 cows,  
2 horses, sheep & 10 chicken + now look  
now, all is empty + we only have 2 cattle.  
They took everything away. Now we are given  
2 liters of milk a day. In old times we used  
to have as much as we liked. One cow we had  
gave 15 liters a day. That is why my children  
look so pale will. Hasn't get better  
five get no land or no cows."

Kolikoy, country 220000sqm. 300+ people  
from village don't work - will die. There were  
two Kukak families + we sent them all  
away. We sent (last year only) a month ago  
the rest of families, because we must stay at Kolikoy  
and there is work. They go to Solotchi or Tolyatti  
to enter gold or silver or copper. In 6 years,  
when they have participated themselves, they  
are allowed to return. We leave my old  
one (90 years old) here, because they are not  
dangerous to Soviet Power. We have already  
liquidated Gulabs.

Sudden change of peasant. His job is wife.  
Old man a son-in-law, brother; you know mostly  
of women only; women in silk.

Kolikoy, name of Stalin.  
In June - July we had a campaign against  
illiteracy; there were a lot of illiterates; we liquidated  
illiterates, now there are none at all.

Account:  
Threshing: this was my last good piece-work.

Then (when threshing) was / land of Com. Shabotov.  
Harvest: this year below average; 17-20 tons  
per hectare.

Other villages: the kolkhoz has many workers for  
threshing; however too much in + send / more  
over. Double - fact. We sent 130 men to  
Bridg. factory alone. We sent 5 + gave them  
downwards to go. Some go back by train to.

Village Soviet; 52 members (for 50000. people)  
about 3rd Communists; Poles, Germans, etc others;  
3/Vis - does not a member.

The more working you have / more you  
people or shall have to send to 7578  
factories which are to be opened this year.

Get + Besbyzhnik - Jan.

We had a reactionary village. We sent 1 leader  
away. Sent him to Siberia, then he's got  
to do his work, a hard s / battle he went  
empty. He was a Kukak. He said that  
I town - corrupted all (people to die, etc.)  
People of home was soon to come + threw  
out half all (Communists).

Germans (piece-work). Last year  
we had equal work (equal pay),  
+ a lot of people very lazy, said that  
if they worked or not they're right same. But  
we introduced self-shading this spring  
+ now they work for harder. Work is work;  
pay is put down + profits are divided  
at 70% of year.

We closed / built + we are  
going to turn it into a House of Culture. There will  
be film, orchestra, play, lectures. In it will  
be a branch of Osozavodstvo + of MOKh.  
We have now a branch of MOKh. Here +  
in practice with gas works for our  
village. We must be prepared of at war.  
There are 45 members, 45 men + 30 women.
