on eve of a further deepening of world

entrainment of conflicts both between

decaying capitalism. Under the circumstances

it has never had

great significance. The world economic crisis

has pounced all capitalist countries and

e.g. the most important branches of production. The fundamental

features of crisis are in a violent

cutting down of production, a

shock decline of internal
market together with impoverishment of working masses by a colossal growth of unemployment in the absence of foreign market. A number of unemployed in capitalistic countries already exceeds 35 million and is steadily growing. Their wages have been cut to the level of subsistence, on social insurance workers' day has been lengthened to 12 hours. Peasants have been ruined through fall of prices and agricultural products through high taxes and rent. The attack of capitalism on standard of living of working masses has led to increased mortality. The workers' bourgeoisie is struggling with help of social democrats to guarantee a capitalist way out of crisis at expense of working masses. The bourgeoisie together with social democrats are organizing terrorist fascist bands, threatening workers.
A vast collective movement engulfed millions of peasant households.

Your conscription meant that we had just brought 1500 tons of ballast to England and brought back machinery in time a year or two. These exports had ceased.

The capitalist man is free. Good luck. Well dressed, fine hands. But life is like the tiger - very beautiful, but just you try and deal with him.

Freedom

Economic freedom is ultimate aim. There is no freedom in bourgeoisie countries because bourgeoisie control press.

Cheka: Secretly. "We must have in Great Britain a Cheka more ruthless than in Russia.

Money. There will be no need for money. Each worker will draw from common stock just what he wants and give according to his abilities."
World Revolution (1917-20)
New R is inevitable, and country will freely apply for membership of U.S.S.R. Genoa first. In India, lack of British Communitas is to fight for freedom of workers, peasants by Indian & British bourgeoisie.

Great man. Lenin is only great man who has lived. A great man is a man who will sacrifice everything in interest of proletariat. Edison was not a great man because he was exploited to benefit bourgeoisie.

Communist revolution in Egypt. Factory stores will be set up. Meat will come from Russia. Russia has not relinquished idea of world revolution.

Religion (1929, Bombay, India)
Catholic religion taking over free thinking free choice? Jesus is a human being. He was used by bourgeoisie to control people. P. B. objected to priests selling money when they married people. Wealth is inherited so one takes heed of outward show: ceremony. The higher church authorities get free salaries.
Communism in England

Dr. Salter, M.P., Communist is dying out in England. My claim my 2000 members. But really there are less than 1000.

Bermondsey where I live, this is a complete working-class population. Communism hasn't exist. Communist branch had difficulty in getting half adjoin men to their meetings. After funds received from Moscow, paid organisers left there was no more agitation.

Why does Communism not flourish in England?

1. The British workers have no theory.
2. The British workers have no trained feeling for self-sacrifice. They feel "I want communism I can get it by vote." The rest majority of British people are anti-Labour. We do not give receptions to Royalty. But whenever Russian Royalty or

Queen come they receive terrific enthusiasm.

3. British love for law and order, hatred of violence.
4. British worker's feeling for family and morality.

Dr. Somerville Hasling, M.P. remarked how difficult it was to work with Communists. He had no moral standing. Difficult ideas of keeping me, you, or him on his could not be trusted to keep their obligations.

Scotchman Communist. "What's wrong with Kirkwood is that he's a nationalist. We must do away with all feeling of nationalism."

Yes. I believe in God. My parents do, too. My father is the commanding officer, and my mother is a sectarian Baptist. There are lots of Baptists. They took me to a meeting once. There were lots of people, I worked there. Only 1 fell asleep. I was interested when he spoke to me. I am not interested when he speaks about politics. I like sport.

My class a lot believe in God, but it is a minority.

Youth is enthusiastic, but all who have seen other days are differing. The Russian work is accustomed to work in a knit, but must always be ruled.

I want my child to have a good education. So all girls are not keen on a little girl being a commoner. I want her to join 14 komzhal for her to have a good education. That’s what most parents wish for children to do.

It’s very heartening. Now they have declined.

Nobody wants to have children now, because it is difficult to feed them. Abortion is all the time. When I was in the hospital sick I call my knees, my community, my mind is from not food. We have a lot of problems.

There were 15 abortions in one night. The consensus says that girls wear so little clothing are attracted to one another. Now they pay little for smocks and buckets. So all children of girls under 18 must be given to state homes. Malnutrition girls is careful. I don’t find that girls behave well here. When free money is introduced, the girls prefer 25 yrs left the women married off their girls.

Women of today say, “If I have a child, I will live until they are born if I get tired of them I’ll get someone else.”

Religion. There are a great deal of beliefs left, but old people. There are my sectarians but they conceal it.

I come to forced people to pay a month's wages. They took only so much for each month's work.

If a man wins a lottery, he's treated kindly. If you cannot sell your share, workers do not want to give money. It is a gift. If you do not give you go on the black list.
