Member of P.E.T.

I've been a member of the party for 12 yrs. They are now sending us 2,700 from Moscow, P.B.T. They're the best. Stark, semi-military. We'll make a kulak from any opposition. We're practicing on all those who served in the Civil War. The elite officers are 60% of us have been in higher educational schools. He clinched his fist and hit down

with every word: resolve, ruthless, cruel. 'We are all workers, mainly from the factories. We're 25% organised. There'll be about 4 yrs. each MTC. The MTC will take care of us. We'll give them strict control.'

The weather is good, it's hot.

The methods of the kulaks have changed. They used to murder. Now they are subtle. Mostly they say, we're for the kulaks. We're in the kulak's camp.

"I was a Yeoman, cavalry; served: Bredeney’s cavalry."

The conductor said that there were few travelers now because it was difficult to leave London. But soon there will be a lot of people leaving Moscow for the south in search of emigration. We were asked about 2 months ago. I went to see him where he was going.

 talk to female. We're starving. This month we've had bread. We're from Ukraine. We're hungry. They are dying quietly in the village. Kolkhozy are terrible. They won't give us tickets. We don't know what to do. Can't buy bread for many. A chicken was 2 rubles, milk 3 rubles. Extra. I dropped some peel into sputum. Peas. I pushed it up, not, apples.

I can't get dressed.
bread for a week—only potatoes. I get 60 rupees a month, but by the time they're taken away from loans etc. I only get 30-25 rupees per half month. Be careful in the village because the Ukrainians are desperate. They'll grab any bread which they can see. Conductor set 67 rupees a month in a kilo of black bread per journey.「I must work night and day.」

Personally, when I left my mother's house, a couple of days ago, they had 2 glasses of flour left.

Ex. 1965: "At present moment Kolkhoz construction is going through a period of transition. It's necessary to struggle against majority of traditions. The preparation for the spring sowing campaign is a fight. We hold opportunities to try to smash/plant the sowing of everything. I call the muscles of the Kolkhozian must pull other productive tendencies. Individual country is going rapidly ahead a difficult road we must go slow to machine although this cannot be done immediately. Thus we must still pay attention to horse. Now just look it had written down in the village.「I hope」.
Ukraine. Everywhere I talked to peasants who walked past the village had the same story. "There is no bread. We heard that bread for two months. A lot are dying." The first village had no more potatoes left and the store of sugar (beets) was running out. "My all said," The cattle is dying," bread. We need to feed the cows. How can we soon when we have few horses left? How will we be able to work in the fields when we are weak from want of food?"

Then I caught up...
a bearded peasant, who was walking along the street, covered with sackcloth. We started talking. He spoke in Ukrainian Russian. I gave him a lump of bread and cheese. You couldn’t buy that anywhere for 10 rubles. There just is no food.

We walked along and talked. Before the war this was all gold. We had horses and carts and pigs and chickens. Now we are ruined. Nowadays... You see that field. It was all gold, but now look at the weeds. The weeds were keeping up, as the snow. Before the war we could raise boots, meat, butter. We were the richest country in the world for grain. We fed the world. Now it we take all away from us. Now people steal much more. Four years ago the stony horse. Horses came. There that’s where I saw the track of a horse.

“Tired is better than a tractor. A tractor just can’t stop, but a horse for all the time. A tractor always works in certain time of the year, but a horse you can use all the time. A tractor cannot plow manure into a horse can.

The white bread they thought was wonderful. The husband had eight cows, path, many vegetables.
He was an orthodox priest that most believed but that they had closed the church.

In another village the church had been turned into a grain store, in the rest into a club.
