Commonism in England

Dr. Jolly M.P. Commonism is
going out in England. My claim
was 2000 premises, but really
there are less than 1000. A
Barrister who I know, who
is a complete working class
population, Commonism has
been. I Commonism has
difficultly in getting half a dozen
men to their meetings left
friends ceased from House,
hard of ears left - this
was no more agitation.

Why do Commonism
not flourish in England?

1. The British workers hate
for theory.

2. The British workers
impaired feeling for self-govt.
My part is to get what Commonism
we can get it by 1918. The one
requirement of English people are
anti-Cathy. It is to give
reception to English & British
but it is not British May 1917

2. Relief love of law & order;
hatred of violence.

3. British worker's feeling
for family & locality.

Dr. Somerville Hastings M.P.
reminded how difficult it was
to work with Commonism. He
had no moral standing, slight
idea of feeling out of work & down
it. He could not be trusted to
keep this obligation.
